

One of India's Largest Manufacturers of Plasticizers, PVC Compounds & PVC Heat Stabilizers

VINYL GROUP

Our Quality, Your Pride

Founded in 1971 by Mr. D. K. Gupta, Vinyl Products has grown from a small trader of PVC Compounds to a leading manufacturer providing comprehensive solutions for the PVC Industry. With a strategic network of manufacturing facilities across Delhi, Rajasthan, and Daman, in India, Vinyl Products has entrenched itself as a trusted partner in the industry, poised for continued growth & operational excellence. Over the last 50 years, Vinyl Products has flourished into a diversified conglomerate – The Vinyl Group of Companies – encompassing a diverse range of ventures including manufacturing, trading, finance, retail, and hospitality.

VINSTAB

STABILIZERS

PVC heat stabilizers are essential additives for manufacturing PVC products such as pipes, cables and footwear. They improve the thermal stability and prevent the degradation of PVC at high temperatures.

Our Journey

In 2014 we backward integrated to set up a PVC Heat Stabilizers manufacturing facility in Bhiwadi under the brand name "VINSTAB". This strategic expansion transformed our Bhiwadi unit into India's first and largest fully automated, integrated facility capable of manufacturing both PVC Compounds and Stabilizers under one roof. By controlling the core chemistry of our products, we ensured unparalleled consistency and performance across our entire portfolio.

Today, VINSTAB stabilizers serve as a critical component for our captive consumption and are a trusted choice for leading manufacturers in the PVC Pipes, Footwear, Cables, Synthetic Leather, and Flooring industries.

PACKING TYPES AVAILABLE

25kg HDPE Bags Palletised/Non-Palletised
Jumbo Bags Palletised/Non-Palletised

CALCIUM ZINC STABILIZERS

BARIUM ZINC STABILIZERS

METALLIC STEARATES

Calcium Stearate
Zinc Stearate
Cadmium Stearate
Barium Stearate
